PA NEWC OBSERVES

normal. Announcement by Superinendent D. S. Pyle yesterday that the great Shenango tin mill is to get into complete operation within a few industrial standpoint. Within the past few weeks the Lehigh Portland Cement plant has resumed, an additional furnace has been put into blast at the Carnegie Steel plant, a night turn has been added to speed up operations at the American Can compnany plant, reports largely increased business for as soon as manufactured. the past year, more employes have spring work is being started and al- near to capacity March 26. together conditions are looking rather roseate in New Castle.

Maple sugar camps are being oper ed. Word comes from the vicinity of Rich Hill that Rev. Rohrabaugh has opened a sugar camp in that locality and those in Mercer county nearby are also being put in operation. Boiling down time is here. Anybody that has ever visited a fragrant maple sugar camp while this process was in operation will realize what is meant by "boiling down."

New Castle high school enthusiasts were disappointed last night at the outcome of the championship game in Pittsburgh, as were members of the domain. But, "you can't win 'em all."

Pa Newc gets rather tired being a chronicler of the gyrations of cars on the North Hill every time a slight snow falls on the city. Yet, citizens will insist on leaving their garages on such mornings without chains on their cars Well, what is to be done Search For Bodies Of From about it? Those who forget chains not before they get to the down town section but they also cause a little chill to race up and down the spine of everyone else. There was one man this morning who wanted to turn in Garfield avenue from Highland avenue. Well he made the turn all right but it cost him a blow out and his car turned around once in the process.

As one sage says "It is better to have this sort of weather now than later (for if it should come in April all the buds would be frozen and the fruit crop become a failure.

who has made history during the to this effect followed the refusal by them began. who has made history during the to this criteria at the bankers past year. Clarence D. Chamberlin Mayor George E. New Castle Tin Mill To Increase

Cent Operation By First Of April

THREE MORE MILLS

Entire 20 Hot Mills To Be In Operation By April 2, Is Announcement

More good news, industrially, for this city is had in the announcement by John A. Butler, general manager of the New Castle works of the American Sheet & Tin Plate company, that three additional hot mills, making 17 in all, will operate next week at that plant, for 15 full turns, which is almost full capacity.

Three other hot mills of the plant, which will not go on at that time. would have been put in operation Monday, had it not been for the fact that repairs had to be made, which made it impossible for them to go on

All Mills to Run.

These three remaining hot mills are scheduled, however, to go on Monday. April 2, when the repairs now in progress will have been completed placing the operations on practically a hundred per cent basis for the first time in many months. There are 20

POLITICAL ADVERTISEMENT

THE SECOND TERM

The custom of returning the representative in the General Assembly for a second term is an old one in Lawrence County. For more than thirty years the voters have apparently believed that "one good term deserves another" and every representative from this county since 1896, who has run for re-election, has been returned, with but one exception. Many, many times there has been no opposition. The custom seems to have arisen out of the theory that experience in legislative work is as necessary as it is in a trade, a profession or a business, and that the first term was merely seasoning the member for his real work in the second term. I am a candidate for the Republican nomination for General Assembly, for the second term.

WHEN IN DOUBT

Paul Browne Patterson Mus. Bac. Who Will Conduct the Festival Choral Society Next Tuesday Evening, March 20th.

Mr. Patterson began his career as a conductor early in life. At the age of 11, he composed a "fantasy" for orchestra and conducted it at its first performance in a concert in his home town. This earned for him considerable renown and was the deciding factor in the minds of his parents as to what to do with him. Mr. Patterson was sent to Oberlin College and Conservatory for

his early training. Upon graduation from this institution, he took up post-graduate work with celebrated teachers in New York City, Berlin, Germany, Paris, France, and London, England. Toured Middle and Western States for five seasons as concert singer, pianist, composer and conductor. Received Degree Bachelor of Music from Oberlin

For several years Mr. Patterson was musical editor of the Lake Side Magazine, and earned an enviable reputation as a writer on various musical subjects. During the past few years Mr. Patterson has devoted his time and talent to the development and training of singers and pianists meeting with the greatest success of his career in this field of

musical activity. At present he is director of The Patterson School of Music. conductor of The Festival Choral Society, organist and choir master of Trinity Episcopal church of New Castle, Pa. His composition "Nymphs" (written expressly for the Festiva) Choral Society) a picture in tone of the midnight merry making of the tiny creatures of classic mythology will be one of the num bers sung by the great chorus next Tuesday night.

THE MAN WHO CAN

THE world has always been in need of men to do the things that could not be done. The need is as great today as ever.

When Columbus started out to sail around the globe men laughed at him and declared it could not be done. Columbus did not succeed, but he proved that the thing could be done.

When Samuel Morse started to transmit messages between distant points by means of a private wire people said it could not be done, but Morse proved differently. Fifty years later Marconi showed people how to talk through the air without even the use

Edison achieved two things that most people declared to be impossible when he used electric current to produce light and when he reproduced the sound of the human voice. Motion pictures are another of the "impossibles."

TELEVISION AND THE BATHTUB

UAS modern scientific brought happiness to the human race? The H question may be argued both ways. There are at least inventions which many feel have added a new terror to life.

Thus the Bishop of St. Alban's, at a recent meeting in England, gave vent to his dread of television. He declared that the bath was the only place of privacy left. "I view with great trepidation," he is quoted as saying, "the coming of the day when by television my morning ablutions will be reflected on the screen tomorrow 6:07. New York for the entertainment of the American public

This episcopal pleasantry need not be taken too seriously. this, that the scar due to an opera- are putting New Castle on the map. aren't afraid of the automobile be- painless investigation. Turn him school that is news. But it is only of the island were smoking the otherwise he might be asked if the English public were less curious less a girl goes into the movies. han the American. Probably there will be advantages in seeing well as hearing at long distances. But the right to privacy, which tell a fellow by the color of his neckhas been so rapidly restricted in recent years, will be still further tie so much as he can by the color avaded when one can visualize a far distant image.

Probably no one, not even the Bishop, would go back to the avs when communication of any kind was difficult. But each that you are critically ill and asks new means of securing it has been in turn looked at askance. Wordsworth said years ago that "the world is too much with us." hearted. Just tell him yes, there is, on our old home street, Milton, who my retreated, leaving him in pos- has gone, never to return. There are ing center of the world and the total which is concerned. What would he say now?

POLITICS IN ASSESSMENTS

THERE is a relationship between politicians, tax assessments and now shown some real human kindness schools that is the cause of considerable concern to Pennsylania educators. Dr. John A. H. Keith, state superintendent of difference, every day before prohibipublic instruction, expressed this concern:

"The financing of schools is one of the major problems that laws are also. Generally speaking, it now take a back seat and allow the mouth shut. education in the state faces. In certain parts of Pennsylvania, is the same persons doing the violatcounty commissioners, eager to oblige the voters, decrease the real estate assessments and the local assessors further cut down the assessments in an effort to secure votes. If this state of affairs continues, the state will be forced entirely to support the schools in some localities."

Under the law the state contributes to the support of schools in inverse ratio to the taxable wealth of the district. The result is If you don't kick about the hotel that the district having the lowest assessments collects the most eat on kitchen oilcloth at home. state aid.

Doubtlessly Doctor Keith has the evidence to support his blat the previous to the world war and the tell what they want, and others just beep one—it pays. Salaries, no mathematical previous to the world war and the previous to the world war and the lion more people had savings accounts sensational charge that some districts have deliberately lowered which is due, no doubt, to the fact look of houses. To make the give up and say, "ham and eggs." assessments in order to obtain increased school appropriations mouth full of sand from the state. The guilty districts should be found and their conspiracy thwarted. The injustice of the thing is that some school let well enough alone. Somebody had districts that are less scrupulous than poor are obtaining money carrots. that rightfully belongs to districts that are assessed and taxed to when will the furniture dealers true, but who'd want to be able to eat the limit.

Pennsylvania legislatures are decidedly generous toward the around the outer edge of the polished top table and desk so as to save cigschools, and it behooves every borough and township to play fair aret smokers the trouble? with the state. It is just as important that every citizen receive | Packing sardines in a can may be drinking water was the one proposihis share of the benefits of taxation as it is that he pays his share skilled labor, but eating them is far tion of paramount importance to of the taxes.

POSTAGE BASED ON SERVICE COST

A FAVORABLE report has been made in congress on the bill to have the Postoffice Department declare for a policy of postage rates based on service. Business done at a loss would not be haven't as yet taken the place of the down. You'll find that she's either a charge against operating costs.

Spring Hat

As Told By Annabelle Lee to

Your New

ITAL W WEND AND ITAL IT OF WALL CARREST AND ALL THE ALL AND AL

eyes in the world looked at me provocatively through the tiniest wisp of black lace that was dropping over an excuse for a rim of black straw.

Low on one side the lace was caught into a knot and held by a round buckle of infinitesimal pink roses set flatly so that they completely covered her ear but did not keep a long gold earring from adding to the gen-

"It is perfect" I said, with conviction. "Did you get it to wear any-"Don't you realize that it is

spring?" Annabelle asked as though another explanation was unnecess-"Oh," I said, "then the modern

girl's fancy turns to hats at the time that her boy friend's turns to love." "It amounts to the same thing. Of course, you know that" was her somewhat surprising announcement.

thoughts would turn to love unless a spring bird calls, the sunshine, the budding trees and the general joyousness of nature? He, poor simp would go along the street wondering what makes him so happy. Even when the only girl smiles at him in her old winter hat he is apt to lay his general joyousness to spring instead of to her sparkling eyes and smiling lips—but with the added 'talking point' of a new and becoming hat which speaks louder than words she takes his mind entirely off of the sly appeal of spring and focuses it on herself.

"If I could only tell a few of these beautiful but dumb young women who write to the lonesome columns, I yourselves and do your stuff.' "Which just at the present time

GRANGE PLAY Big Beaver grange play entitled

Since its announcement on January first, the Bigger and Better Chevrolet has been awarded a public endorsement of spectacular proportions! Nine million people crowded Chevrolet salesrooms the first three days following its presentation! Thousands of retail deliveries have been made every day since! A quarter million of these new cars are now on the road! And if you see and drive this great new car you can quickly sense why its tremendous popularity is increasing every day.

It is smoother and more powerfulbecause its improved valve-in-head motor incorporates numerous engineering achievements. It is more beautiful and

more comfortable-because the fashionably styled new Fisher bodies are longer, lower and supported on semi-elliptic springs 84% as long as the wheelbase. It is easier to drive - because the worm and gear steering mechanism is fitted with ball bearings throughout. And it sells for new low prices made possible by the economies of tremendous volume production which last year made Chevrolet the world's largest builder of automobiles.

Come in today. Get a demonstration of this sensational new car. Learn why it is everywhere hailed as the world's most luxurious low-priced automobile!

The Strongest Step— Your Credit

The standard of a man's worth is-Credit. Therefore, the strongest step he can take is to protect that standard at all costs.

A collector at the door oftener than usual, an account closed against further credit, a name brought up in the meeting of the members of the New Castle Credit Exchange—there are dozens of ways in which the credit record of a

person becomes clouded.

You are judged in the business world as well as socially by the way you pay your bills. Whereas a record once clouded may be cleared—it is much wiser and easier to maintain a good record for prompt pay than to rebuild one that was permitted to become unsatisfactory.

Suppery Rock

Sunday school at 10 a. m., at which time there will be election of new officers. Morning service at 11:00 a. m. with Rev. Elliott preaching on "Seeking and Finding" and "Brakes," re-

U. P. Church Bible school at 9:45 a. m. Morning worship at 11:00 a. m. with Rev. Minteer preaching on "Paul's Invoice." Christian Endeavor at 7:00 p. m. Evening worship at 7:45 p. m., with a sermon on "The Great Supper.

Veterans' Ladies Plan For Party

ELLWOOD CITY, March 17.-A trict. good percentage of members were present at the regular semi-monthly meeting of the Sons of Union Veterans auxiliary Friday evening in the postoffice building. The chief item of business was planning social events for the future, to include a clothes pin party at the next meeting, with a lunch, and also to have parties once each month at the home of the respective members.

At the conclusion of a brief social period last night the ladies adjourned until their next meeting in two weeks.

Reconditioned ead the Mondo in USED CAR value

One of the very best used cars to buy is a Reconditioned Nash.

At the great Nash factories, extra hours of extra care have gone into its manufacture. Before its first owner gets it, every mechanical unit is tested again and again, to be certain it is right.

Then, when its first owner comes in and buys "another Nash" because this one has been so satisfactory, we take it, and our experienced Nash mechanics test it. They discover what it needs, and do everything necessary to give its second owner equally fine results.

Parts that show the slightest wear are replaced by new and genuine Nash parts.

It costs you no more to buy one of these Reconditioned Nash cars than an ordinary used car. We price them low for immediate clearance, and to acquaint more people with the many advantages of Nash ownership.

Come in, look over the unusually fine selection on hand at this time. Then see how easily you can own one of this better type of used cars on our exceptionally easy terms.

Nash Reconditioned Cars Lead the World in Used Car Value

"Electricity the Barometer of Business"

says St. Louis Globe-Democrat

"Electricity is of almost universal use. It enters to some extent into all industry, and to a very great extent in many industries. It is the source of power for all facilities of communication except the mail, and nearly all the transportation utilities except the railroads, while its use in railroad transportation is increasing. It enters into the majority of homes. There are said to be more than 65,000 different uses of electricity. A force so general and so pervasive surely indicates by the measure of its consumption the condition and trend of business."

comes an essential element in so many of a people's activities that its consumption is an index of prosperity, the efficiency of the industry which produces and distributes it is of vital importance to every citizen.

Electricity has increased the productiveness of labor 150% in the last 10 years. Through the rapid extension of electrical service the American worker has from four to

forty times more power at his command than his foreign competitor, and his wages are greater in proportion.

But just as for the worker, high earning capacity and advanced standards of living depend on individual freedom, so for the power industry freedom of individual initiative and an abundant flow of capital are necessary to meet public demand.

Electric Service Is the Cheapest Thing In the Home Today

PENNSYLVANIA POWER CO.
